HORSEBACK RIDING *Podstrana*

TRAILS OF ancient Romans

Horseback RIDING adventure

Take an Ancient Roman trail over the mythic hill Perun that connects two villages Podstrana and Krilo while enjoying a panoramic view of the archipelago of Hvar, Brač, Šolta, Vis islands, the peninsula Čiovo as well as Split, Stobreč and Trogir. Experience this while horseback riding in the serene ambiance of tranquility and natural beauty. The trail goes along a stone terrain mountain way so you are surrounded by the relaxing atmosphere of a mountain range. The trail begins in the old village of Gornja Podstrana that is near Split (12 kms). Allow our horses to take you through an oasis of serenity and beauty while you feel as if floating.

The trail goes along a stone terrain mountain way with views of gorgeous scenery

2 hours of an UNFORGETTABLE experience

The hoses are extremely well tempered and well-mannered and the trail itself is appropriate for beginners as well as experienced riders. There is no prior horseback riding experience necessary. The age limit is 12 years old, no younger children allowed. The groups are 3 to 5 people.

After pick-up we will arrive to the ranch where you will be introduced to your horse companion. You will be greeted by your personal guide that will be with you for the entire Trail. Following welcome drinks and getting to know your horse you will be starting the 5 km long and 3 m wide trail. The entire trail is walked and not run by the horses with your guide setting the tempo and order of the group as well as explaining all the historic and nature sights of the area. The group being small and personal allows you to ask your guide any question you may have. Following an unforgettable adventure and riding (lasting approx.. 1.5hrs) you are greeted back at the ranch with homemade delicacies (Dalmatian Pršut and cheeses,...) as well as wine and other beverages. Upon finishing your experience our diver will take you to your desired location. The full adventure takes 2 hours without counting in transportation.
